

To Hill Laboratories from Pittsburgh:

From the Pennsylvania Turnpike you get off at the Downingtown Exit taking Route 100 South towards West Chester. Go about 3 - 4 miles til you reach Route 30 East (turn left onto 30). Go about 3 miles on Route 30 going under 202 bypass. About 7/8 mile from bypass there is a Wawa on left corner. Turn left on Planebrook road and go one-half mile until you come to a stop light, which is Swedesford Road. Turn left on Swedesford and travel one block. Turn right on Bacton Hill Road. Our office/factory, a white building, is on the right 3 Bacton Hill Road.
